# Table of Contents

<b>Chapter 1 Introduction .....</b>	<b>1-1</b>
1.1 What Are CSOs?.....	1-1
1.2 Why Reduce CSOs?.....	1-1
1.2.1 Technology and Water/Sediment Quality Regulations .....	1-1
1.2.2 CSO Control Regulations .....	1-3
1.2.3 Endangered Species Act.....	1-4
1.2.4 Public Perception and Preferences .....	1-4
1.2.5 Policies .....	1-5
1.3 How Is King County Controlling CSOs?.....	1-5
1.4 What Is in this CSO Control Plan Update?.....	1-6
<b>Chapter 2 Effectiveness of Current CSO Control Plan.....</b>	<b>2-1</b>
2.1 Combined Sewers in King County's Service Area .....	2-1
2.1.1 King County's Wastewater System.....	2-1
2.1.2 Relationship Between King County and City of Seattle Systems .....	2-5
2.2 CSO Control Through Wastewater System Management .....	2-7
2.2.1 Providing Adequate Capacity.....	2-7
2.2.2 Operating and Maintaining the System .....	2-8
2.3 Pollution Prevention and Source Control.....	2-10
2.3.1 Industrial Waste Program.....	2-11
2.3.2 Local Hazardous Waste Management Program .....	2-12
2.3.3 Sediment Remediation and Source Control .....	2-13
2.3.4 Practices to Control Floatables.....	2-13
2.3.5 City of Seattle Stormwater Pollution Prevention Programs .....	2-14
2.4 Implementation of EPA's Nine Minimum Controls .....	2-14
2.5 Monitoring and Modeling CSO Control—CSO Volume and Frequency .....	2-17
2.5.1 Relationship Between CSO Monitoring and Modeling.....	2-17
2.5.2 Measured CSOs in 2000–2007 Compared to Modeled Baseline and 1999 Predictions .....	2-17
2.5.3 Relationship Between Measured Rainfall and CSO Volume in 2000–2007 .....	2-21
2.6 Control Status of King County CSOs .....	2-22
2.7 Characterizing Environmental Impacts— Studies and Monitoring Programs .....	2-23
2.7.1 Environmental Studies .....	2-23
2.7.2 Ongoing Water and Sediment Monitoring Programs .....	2-29
2.8 Implications of Environmental Characterizations for CSO Control Planning .....	2-35
<b>Chapter 3 CSO Control Projects.....</b>	<b>3-1</b>
3.1 Factors Shaping CSO Control Decisions .....	3-1
3.2 CSO Control Project Priorities.....	3-2
3.3 Implementation of CSO Control Projects .....	3-4
3.3.1 Completed CSO Control and Associated Projects .....	3-4
3.3.2 CSO Control Projects Under Way.....	3-6
3.3.3 Future Projects.....	3-7
3.3.4 Ballard Siphon Replacement .....	3-8
3.4 Approaches for Consideration in CSO Control Projects.....	3-8

## **Table of Contents**

---

3.4.1	Stormwater Management.....	3-8
3.4.2	Storage.....	3-10
3.4.3	Conveyance Improvements .....	3-11
3.4.4	CSO Treatment.....	3-11
3.4.5	CSO Treatment Technology Pilot Program.....	3-12

## **Chapter 4 Public Involvement Activities Related to the CSO Control Program .. 4-1**

4.1	Program Reviews and Plan Updates .....	4-1
4.2	Public Notification Program .....	4-2
4.3	Puget Sound Beach CSO Control Projects .....	4-4
4.4	Special Projects .....	4-4
4.4.1	Lower Duwamish Waterway Sediment Cleanup.....	4-4
4.4.2	CSO Treatment Technology Pilot .....	4-5
4.5	General Wastewater Management and Water Quality Education.....	4-5

## **List of Tables**

Table 2-1. Discharge Locations for County CSOs.....	2-5
Table 2-2. King County's Compliance with EPA's Nine Minimum Controls .....	2-15
Table 2-3. Annual Average Frequency and Volume of Untreated CSOs: Monitored CSOs Compared to Modeled CSOs (2000–2007).....	2-19
Table 2-4. Ongoing King County Water and Sediment Quality Monitoring Programs.....	2-31
Table 3-1. Completed CSO Control Projects .....	3-4
Table 3-2. Completed Associated Projects .....	3-5
Table 3-3. Planned CSO Projects in Order of Priority .....	3-7
Table 4-1. Public Involvement Activities for the 2008 CSO Control Plan Update .....	4-2

## **List of Figures**

Figure 1-1. Reduction in CSO Volumes Over Time.....	1-7
Figure 2-1. King County Wastewater Service Area and System .....	2-2
Figure 2-2. Flow Strategy at a Pump Station .....	2-4
Figure 2-3. Flow Strategy at a Regulator Station.....	2-4
Figure 2-4. CSO Locations in King County .....	2-6
Figure 2-5. Rainfall and CSO Volumes (2000–2007) .....	2-21
Figure 2-6. Presence of Duwamish Waterway Chinook During CSO Discharge Monthly Average Volume, 1999–2004.....	2-28
Figure 3-1. Factors that Shape CSO Control Plan Decisions.....	3-2
Figure 3-2. Priority of CSO Control Projects .....	3-3

## **Appendices**

Appendix A. RWSP Combined Sewer Overflow Control Policies
Appendix B. EPA's Nine Minimum Controls
Appendix C. Description of Models Used for Metro/King County CSO Planning
Appendix D. Foundational Studies
Appendix E. Work Being Done to Improve Mercer/Elliott West System
